# NO PULL CORDS, NO MAINTENANCE, NO GAS, NO HASSLE

It's time to take the "work" out of yardwork with Greenworks Elite.

Make the switch to battery and start saving money and time with our easy-to-operate 40V line of tools.

## Why Cordless?

### + INSTANT START

Hassle-free push-button start

### + ECO-FRIENDLY

No fumes, no emissions

### + LESS NOISE

Keep your neighbors happy with our quiet electric motors

### + PERFORMANCE

High-capacity 3Ah & 6Ah lithium cells & powerful electric motors provide gas-like performance & runtime

### + SMART BATTERY

Integrated Bluetooth & USB connectivity provide versatile features designed to improve user experience

### + NO MOTOR MAINTENANCE

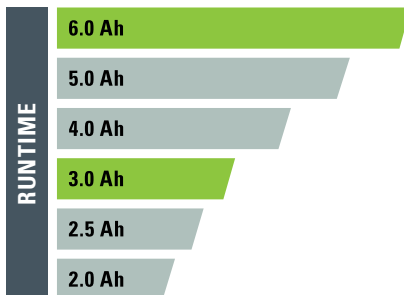

No need to replace fuel filters, spark plugs, carburetors, etc.

### + SAVE MORE

Most tools pay back up to 50% of their original cost in fuel & maintenance savings

### + LESS WEIGHT

Lightweight designs reduce user fatigue during operation

## GreenGuide: Connect, Monitor, Diagnose, Lock, Manage

Connect to your batteries & tools using the Greenworks GreenGuide App.

#### Bluetooth:

- Charging Status Updates
- Lifecycle Tracking
- Battery Diagnostics
- Tool Lockout
- Battery Temperature Readouts

#### USB:

- Portable Powerbank Capabilities

# ONE BATTERY POWERS 14+ TOOLS

The entire Greenworks Elite 40V line of outdoor power equipment runs off a high-capacity Smart Battery. This advanced battery system provides increased runtime and a series of versatile connectivity features — offering everything you need to tame your yard.

# LAWNMOWERS

Greenworks Elite offers both push and self-propelled mowing options. Powered by efficient brushless motors and equipped with high-capacity 6 Ah batteries, these mowers have the get-up-and-go to maintain 76 percent of new U.S. homes (given average new home yard sizes) with a single charge.

# HEDGE TRIMMERS

Greenworks Elite hedge trimmers offer versatile, lightweight designs and gas-like performance without the noise, vibration, or operational hassles of traditional equipment.

## GREENWORKS ELITE HF-180-XR

18-inch

Blade

5/8-inch

Cut capacity

3,000

Strokes per min.

### +PLUS PERFORMANCE

Dual-action laser-cut blades provide superior cutting performance

#### REMOVABLE EXTENSION

Electrical connections allow you to add or remove extensions quickly & easily, as needed.

18" DUAL-ACTION BLADES

#### 3-POSITION PIVOTING HEAD

Quickly adjusts to cut under, on top of & along the side of large hedges.

COMFORTABLE GRIP

### SPECIFICATIONS

PRODUCT/FEATURE	HF-180-XR
Motor	Brushed
Pivot angle of cutting head	-45° to 90°
Length	9 feet
Blade length	18 inches
Cutting thickness	5/8-inch
Trigger	Single speed
Cutting speed	3,000 strokes/min
Carrying system included	BasicAssist
Weight (without battery)	7.2 lbs
Included battery & charger	40V 3Ah & standard charger

## GREENWORKS ELITE HT-240

24-inch

Blade

3/4-inch

Cut capacity

3,000

Strokes per min.

24" DUAL-ACTION LASER-CUT BLADES

AUXILIARY HANDLE

180° ROTATING HANDLE  
Provides increased comfort & versatility

LIGHTWEIGHT DESIGN

### SPECIFICATIONS

PRODUCT/FEATURE	HT-240
Motor	Brushed
Blade length	24 inches
Cut capacity	3/4-inch
Rear handle rotatable	180°
Impact guard	Yes
Trigger	Single speed
Cutting speed	3,000 strokes/min
Weight (without battery)	5.6 lbs
Included battery & charger	40V 3Ah & standard charger

# LEAF BLOWERS

Greenworks Elite leaf blowers utilize lightweight axial fan designs to provide increased airflow versus traditional blowers. Choose from brushed or brushless handheld units or upgrade to our backpack model with reduced weight and increased performance.
