WHY GREENWORKS COMMERCIAL?

Greenworks Commercial 82-volt tools provide all the power of gas without the hassle, making it the clear choice to replace your gas operated tools. 82-volt battery technology, partnered with superior brushless motors and commercial grade construction, makes Greenworks Commercial equipment perfect for landscape professionals. Greenworks Commercial lithium-ion batteries deliver longer life, greater and more reliable power, and quick recharge times. They can be recharged at any time without creating a "memory effect" and they operate in a wider temperature range. Greenworks Commercial 82-volt batteries are light-weight and environmentally safe, as lithium is nonhazardous and recyclable waste.

QUIET.

Greenworks Commercial tools are powered by brushless motors, making them up to 50% quieter than gas-powered tools. This quiet operation allows you to work in sites where there are noise restrictions in place. Quieter operation means you can start your day earlier, get to more jobs, and work later – all without disturbing your clients.

EASY TO OPERATE.

Greenworks Commercial power equipment starts with either the push of a button or the squeeze of a trigger – no more pulling a cord. Start and restart easily. The brushless motor technology of Greenworks Commercial tools drastically reduces vibrations as compared to gas-powered equipment. Light-weight tools with reduced vibrations means less user fatigue, resulting in extended use and an easier week of work.

NO GAS. NO OIL. NO FUMES.

No fluctuating fuel costs. No mixing. No spills. No smelling like fuel and exhaust all day long. Greenworks Commercial tools deliver commercial grade power without the mess and smell of gas and oil, so you can breathe easy. Charging a battery is a fraction of the cost of a tank of gas, significantly lowering operating costs.

LOW MAINTENANCE.

Greenworks Commercial equipment requires less maintenance than traditional gas-powered equipment. No carburetors to service, no lines to be replaced, no oil to change, no replacing spark plugs, no cleaning air filters... means no down time. With Greenworks Commercial, the tools are ready to work when you are.

When you make a living with your tools, you want something that you can rely on, and will deliver the power and performance you need. The battery technology and brushless motors of Greenworks Commercial deliver just that - reliable commercial grade power without the hassle of gas.

Commercial Grade Power

WITH ADVANCED BATTERY TECHNOLOGY

Greenworks Commercial boasts 10 years of manufacturing experience as a leader of lithium-ion technology for outdoor power equipment. Greenworks Commercial 82-volt battery technology partnered with superior brushless motor technology and commercial grade construction delivers the most powerful commercial grade tool on the market.

COMMERCIAL GRADE POWER

- 82-volt lithium-ion batteries deliver commercial grade power
- *Multifunction battery:* The same battery powers the entire range of tools

ENVIRONMENTAL RESPONSE

- Zero emissions, zero exhaust
- No fuel, mix or stabilizer required
- Recyclable battery

USER & CLIENT FRIENDLY

- Eliminates pull cords – simply push a button or pull a trigger to start
- Instant start-up in hot or cold weather
- No mixing. No spills. No smelling like fuel and exhaust all day long.

COST-EFFECTIVE

- Save in annual operating costs – no fuel, no mix, no oil to change, no replacing spark plugs or air filters
- 2-Year tool warranty
- 2-Year battery warranty

500 AVERAGE LIFE CYCLE BATTERY CHARGES
Even after 500 charges, the battery retains over 70% capacity

Superior **Brushless Technology**

Greenworks Commercial knows reliability, longevity and comfort are important in a tool. That's why the entire line of Greenworks Commercial tools is powered by brushless motor technology. Brushless motors deliver more torque and power to your tools while reducing battery consumption as well as weight, size and vibrations for precise, fatigue-free work.

Greenworks Commercial brushless motors reduce friction and wear, extending the life of the motor. Brushless technology also provides extended run times and more power while being lighter-weight and quiet, making the entire product line perfect for noise sensitive areas.

WARRANTY

All Greenworks Commercial tools and batteries are covered by a two-year warranty.

BATTERY TECHNOLOGY & PERFORMANCE

CHARGER FEATURES

TECHNOLOGY:

Advanced electronic control optimizes performance for a quick charge

CHARGE TIMES*:

2.5 Ah Standard Battery: 36 minutes

4.0 Ah Extended Battery: 60 minutes

5.0 Ah Extended Battery: 75 minutes

900Wh Backpack: 180 minutes

*Charge times based on a fully depleted battery

Rapid Battery Charger

ITEM
#GC 400

BATTERY FEATURES

POWER:

Premium lithium-ion power cells provides long-lasting 82-volt performance

TECHNOLOGY:

Advanced electronic control optimizes battery performance on the tool and on the charger

VERSATILITY:

One battery powers ALL Greenworks Commercial 82-volt products

DURABILITY:

Rugged construction for job site reliability

DISPLAY:

LED charge indicator shows remaining battery power for job site efficiency

Standard 2.5 Ah Battery

ITEM
#GL 250

Extended 4.0 Ah Battery

ITEM
#GL 400

Extended 5.0 Ah Battery

ITEM
#GL 500

WAIST PACK FEATURES

COMPATIBILITY:

Can be used with 2.5 Ah, 4.0 Ah, and 5.0 Ah 82-volt batteries

ERGONOMIC DESIGN:

Padded shoulder straps for comfort and less user fatigue

SIZING:

Adjustable comfort belt can adjust to fit most waist sizes from S to XXXL

WEIGHT:

69-inch extension cord for greater maneuverability

CORD:

Waist belt reduces work fatigue by relocating the battery weight to your waist

VERSATILITY:

Adapter battery fits 82-volt hand-held outdoor power tools** to reduce weight and lessen fatigue

**Not to be used with Greenworks Commercial 82-volt Lawn Mower, Pole Saw or Chainsaw

Battery Waist Pack**

ITEM
#AWP 100

BRUSHLESS STRING TRIMMER

ITEM #GT 160

The GT 160 String Trimmer combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine maintenance to intensive trimming with a 16-inch cutting path. The brushless motor provides high torque, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GT 160 String Trimmer easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: die-cast gear box for high torque, aluminum shaft for reduced weight, durable easy wind head for less down time. This robust, powerful and lightweight string trimmer perfectly eliminates tall, dense grass and woody weeds, and is ideal for finishing work.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers more torque, quiet operation, and longer life

CUTTING PATH:

16-inch cutting path with a .095-inch twisted dual line bump feed head

ERGONOMIC DESIGN:

Brushless top mounted motor allows for superior balance and ergonomics while trimming

TRIGGER:

Electric start with variable speed trigger options

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 25 minutes

4.0 Ah BATTERY: Up to 35 minutes

5.0 Ah BATTERY: Up to 41 minutes

900 W BACKPACK: Up to 90 minutes

COMMERCIAL POWER:

- 16-inch cutting path with a .095-inch twisted dual line bump-feed head
- Power equivalent to 32cc gas engine
- Brushless motor delivers more torque and longer life
- Dedicated solid shaft and variable speed trigger

USER / CLIENT FRIENDLY:

- Up to 50% less noise than gas protects your hearing and allows you to start jobs earlier without disrupting clients
- Top mounted motor combined with an aluminum straight shaft provides superior balance and ergonomics
- Up to 5x less vibration than gas reduces user fatigue and extends the work day
- No cords – simply pull the trigger to start

ENVIRONMENTAL:

- Zero emissions
- Zero exhaust
- No fuel, oil mix or stabilizer required
- Recyclable battery

COST EFFECTIVE:

- Save in annual operating costs – no fuel, no mix, no oil to change, no replacing spark plugs or air filters
- Zero engine maintenance means zero down time
- 2-Year tool warranty

BRUSHLESS AXIAL BLOWER

ITEM #GB 500

The GB 500 Axial Blower combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine clean-up to light debris clearing. The brushless motor provides longer run times, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GB 500 Axial Blower easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: axial fan design for increased airflow, magnesium motor construction for lightweight operation, cruise control for less user fatigue, durable steel tube ring. This powerful and lightweight blower is great for clearing grass clippings, leaves and debris.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers longer run times, quiet operation, and longer life

POWER:

Axial fan design delivers up to 500 CFM/125 MPH to blow through leaves and debris

TRIGGER:

Variable speed trigger delivers on-demand power

ERGONOMIC DESIGN:

Up to 10x less vibration than gas blowers

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 17 minutes

4.0 Ah BATTERY: Up to 26 minutes

5.0 Ah BATTERY: Up to 34 minutes

900 W BACKPACK: Up to 84 minutes

COMMERCIAL POWER:

- Up to 500CFM at 125MPH blows through grass, leaves and debris with ease
- Brushless motor delivers longer run times and longer life

USER / CLIENT FRIENDLY:

- 60 dB as measured per ANSI B 175.2 protects your hearing and allows you to start jobs earlier without disrupting clients
- 49% lighter than leading 58V competitor
- Up to 10x less vibration than gas reduces user fatigue and extends the work day
- Eliminates pull cords – simply pull the trigger to start

ENVIRONMENTAL:

- Zero emissions
- Zero exhaust
- No fuel, oil mix or stabilizer required
- Recyclable battery

COST EFFECTIVE:

- Save in annual operating costs – no fuel, no mix, no oil to change, no replacing spark plugs or air filters
- Zero engine maintenance means zero down time
- 2-Year tool warranty

BRUSHLESS DEDICATED AXIAL BLOWER

ITEM #GB 600

The GB 600 Dedicated Axial Blower combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine maintenance to serious debris clearing. The brushless motor provides longer run times, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GB 600 Dedicated Axial Blower easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: axial fan design for increased airflow, magnesium motor construction for lightweight operation, cruise control for less user fatigue, durable steel tube ring. With the battery weight shifted to the back in a Waist Pack or Backpack battery, user fatigue is drastically reduced. This powerful ultra-lightweight blower is perfect for clearing tough grass clippings, stubborn leaves and serious debris.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers longer run times, quiet operation, and longer life

POWER:

Axial fan design delivers up to 600 CFM/150 MPH to blow through leaves and debris

CRUISE CONTROL:

Variable speed trigger delivers on-demand power

ERGONOMIC DESIGN:

Up to 10x less vibration than gas blowers

PRODUCT RUN TIMES*

2.5 Ah BATTERY: Up to 15 minutes

4.0 Ah BATTERY: Up to 21 minutes

5.0 Ah BATTERY: Up to 27 minutes

900 W BACKPACK: Up to 66 minutes

*GB 600 requires use of AWP 100 or GL 900.

COMMERCIAL POWER:

- Up to 600CFM at 150MPH blows through grass, leaves and debris with ease
- Brushless motor delivers longer run times and longer life

USER / CLIENT FRIENDLY:

- Up to 50% less noise than gas protects your hearing and allows you to start jobs earlier without disrupting clients
- Dedicated plug-in cord shifts battery weight from your arm with Waist Pack or Backpack battery
- Up to 10x less vibration than gas reduces user fatigue and extends the work day
- Eliminates pull cords – simply pull the trigger to start

ENVIRONMENTAL:

- Zero emissions
- Zero exhaust
- No fuel, oil mix or stabilizer required
- Recyclable battery

COST EFFECTIVE:

- Save in annual operating costs – no fuel, no mix, no oil to change, no replacing spark plugs or air filters
- Zero engine maintenance means zero down time

BRUSHLESS BACKPACK BLOWER

ITEM #GBB 600

The GBB 600 Backpack Blower combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless electric motor technology to power through every job from routine maintenance to serious debris clearing. The brushless motor provides longer run times, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GBB 600 Backpack Blower easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. With the battery weight shifted to the back, user fatigue is drastically reduced. Professionally engineered and constructed product: axial fan design for increased airflow, magnesium motor construction for lightweight operation, cruise control for less user fatigue. This powerful backpack blower is perfect for clearing tough grass clippings, stubborn leaves and serious debris.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers longer run times, quiet operation, and longer life

POWER:

Axial fan design delivers up to 600 CFM/150 MPH to blow through leaves and debris

VIBRATION:

Up to 10x less vibration than gas powered equivalent

CRUISE CONTROL:

Variable speed trigger delivers on-demand power

ERGONOMIC DESIGN:

Up to 50% less noise than gas backpack blowers

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 19 minutes

4.0 Ah BATTERY: Up to 26 minutes

5.0 Ah BATTERY: Up to 35 minutes

900 W BACKPACK: --

COMMERCIAL POWER:

- Up to 600CFM at 150MPH blows through grass, leaves and debris with ease

BRUSHLESS HEDGE TRIMMER

ITEM #GH 260

The GH 260 Hedge Trimmer combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless electric motor technology to power through every job from routine maintenance to thick and tough shrubbery with 4400 strokes per minute. The brushless motor provides more torque, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GH 260 Hedge Trimmer easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: magnesium gear box for light weight operation, anti-jam technology, laser cut blades for cleaner cuts, rotating rear handle for trimming at multiple angles. This powerful, easy-to-maneuver and lightweight hedge trimmer is excellent for both controlled sculpting and general hedge trimming.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers longer run times, quiet operation, and longer life

POWER:

26-inch laser cut steel blade delivers 4,400 strokes per minute

TRIGGER:

Electric start with blade reverse feature to free jams

CONVENIENCE:

180-degree rotating handle allows easy trimming at multiple angles

CUTTING WIDTH:

3/4-inch cutting width to easily cut through the thickest hedges

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 84 minutes

4.0 Ah BATTERY: Up to 135 minutes

5.0 Ah BATTERY: Up to 168 minutes

900 W BACKPACK: Up to 420 minutes

COMMERCIAL POWER:

- 26-inch laser cut dual action steel blade for optimal cutting performance and durability
- 4,400 strokes per minute brushless motor delivers more torque and longer life
- Durable die cast magnesium gear box to withstand heavy use

USER / CLIENT FRIENDLY:

- Up to 50% less noise than gas protects your hearing and allows you to start jobs earlier without disrupting clients
- Innovative 180° rotating rear handle provides easy trimming at multiple angles
- Jam release feature reverses blade at the push of a button to safely free jams
- Up to 5x less vibration than gas reduces user fatigue and extends the work day

ENVIRONMENTAL:

- Zero emissions
- Zero exhaust
- No fuel, oil mix or stabilizer required
- Recyclable battery

COST EFFECTIVE:

- Save in annual operating costs – no fuel, no mix, no oil to change, no replacing spark plugs or air filters
- Zero engine maintenance means zero down time

BRUSHLESS CHAINSAW

ITEM #GS 180

The GS 180 Chainsaw combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine maintenance to felling trees with an 18-inch Oregon bar and chain. The brushless motor provides high torque, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GS 180 Chainsaw easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: gear reduced for higher torque output, electronic chain brake for user safety, auto-oiler with oil view window, aluminum wrap around handle and steel bucking spikes. This tough, powerful and lightweight chainsaw is ideal for cutting firewood, trimming and felling trees or doing forestry work.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers more torque, quiet operation, and longer life

POWER:

Equivalent to a 35cc gas engine, chain speed of 16 m/s

BAR & CHAIN:

Features a 18-inch Oregon® bar and chain for reliability with and easy side-tensioning for quick adjustments

SAFETY:

Metal wrap around handle, steel bucking spikes, and electronic chain brake keeps the user safe

LUBRICATION:

Auto-oiler keeps the chain lubricated for the best cutting performance

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 175 cuts*

4.0 Ah BATTERY: --

5.0 Ah BATTERY: --

900 W BACKPACK: --

*Use of Greenworks Commercial 4.0Ah, 5.0Ah, Backpack battery or Waist Pack not recommended or encouraged.

*Cuts through 4x4 lumber.

COMMERCIAL POWER:

- 18-inch Oregon® bar and chain with side adjust chain tensioning
- Additional 16-inch Oregon® bar and chain included
- Power equivalent to 35cc gas engine, with chain speed 16 m/s
- Brushless 1.5 kWh motor delivers more torque and longer life
- Electronic chain brake for safe operation
- Auto-oiler keeps chain lubricated

USER / CLIENT FRIENDLY:

- Up to 50% less noise than gas protects your hearing and allows you to start jobs earlier without disrupting clients
- Steel bucking spikes and durable metal wrap around handle provide increased leverage and stability
- Up to 5x less vibration than gas reduces user fatigue and extends the work day
- Eliminates pull cords – simply pull the trigger to start

ENVIRONMENTAL:

- Zero emissions
- Zero exhaust
- No fuel, oil mix or stabilizer required
- Recyclable battery

BRUSHLESS POLE SAW

ITEM #GS 100

The GS 100 Pole Saw combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine maintenance to trimming high branches with ease. The brushless motor provides high torque, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GS 100 Pole Saw easily starts by pulling the trigger and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: 27° angled head for a safe overhead work, quick connect aluminum shaft, auto-oiler with transparent oil tank, tool-less chain tensioning. This tough, powerful and lightweight pole saw is ideal for trimming and pruning hard to reach branches.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers longer run times, quiet operation, and longer life

BAR & CHAIN:

Features a 10-inch Oregon® bar and chain for reliability with easy side-tensioning for quick adjustments

QUICK CONNECT:

Durable 3-piece aluminum alloy shaft with quick connects assemble fast to allow for a 8-foot to 12-foot reach

ANGLED HEAD:

27-degree angled head allows for safer overhead working conditions

LUBRICATION:

Auto-oiler keeps the chain lubricated for the best cutting performance

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 105 cuts*

4.0 Ah BATTERY: Up to 195 cuts*

5.0 Ah BATTERY: Up to 240 cuts*

900 W BACKPACK: --

BRUSHLESS LAWN MOWER

ITEM #GM 210

The GM 210 3-in-1 Lawn Mower combines the Greenworks Commercial 82-volt lithium-ion battery with superior brushless motor technology to power through every job from routine maintenance to serious mowing. The brushless motor provides high torque, zero-maintenance and zero-exhaust all while decreasing vibrations and noise levels. The GM 210 3-in-1 Lawn Mower easily starts by pushing a button and is so quiet it allows you to start your day earlier without bothering clients, making it perfect for noise-sensitive sites. Professionally engineered and constructed product: durable 21" steel deck with protective bull bar and rugged ball bearing wheels, SmartCut™ load-sensing technology automatically adjusts speed from 2800rpm – 3200rpm to extend run time or increase power, single lever height adjustment. This powerful lawn mower is ideal for tract home lots, hard to access areas and perimeter work.

SPECIFICATIONS

TECHNOLOGY:

Brushless motor delivers more torque, quiet operation, and longer life

STEEL DECK:

21-inch steel deck with 3-in-1 design allows you to mulch, side discharge or bag

PUSH BUTTON START:

Instant push button start for quick and easy operation

7-HEIGHT POSITIONS:

A single-lever adjusts all 4 wheels simultaneously to 7 different heights for easy adjustment

VERTICAL STORAGE:

Handle folds down for easy transportation and storage

PRODUCT RUN TIMES

2.5 Ah BATTERY: Up to 35 minutes

4.0 Ah BATTERY: Up to 66 minutes

5.0 Ah BATTERY: Up to 84 minutes

900 W BACKPACK: --

COMMERCIAL POWER:
